Contributing factors to the Company’s sky-rocketing growth in domain registration are believed to be the rapid growth of Vietnam’s economy, the expansion of the Internet in the region, and Dot VN’s aggressive marketing/promotion of the 2nd level release (i.e. www.CompanyName.VN) for the .VN ccTLD (country code Top Level Domain).

The dramatic increase in the number of domains registered by Dot VN via the Internet in 2006 has exceeded our expectations. Further, Vietnam’s internet expansion is growing more rapidly than anticipated, a trend which we anticipate continuing in the coming year. We look forward to working jointly with Dot VN to service the growing number of internet users, as we begin building the first commercial Internet Data Center (IDC) to host these recently registered domains.”

Thomas Johnson, Chairman and CEO of Dot VN added, “We are extremely excited with the outstanding increase in domain names registered by our Company, in excess of 350%, as compared to 2005.
