SAN DIEGO – May 4, 2010 – Dot VN, Inc. (www.DotVN.com) (OTCBB: DTVI), an innovative Internet and Telecommunications Company and the exclusive online global domain name registrar for the Country of Vietnam, announced today that the Vietnamese’s Information Super Portal www.Info.VN has been licensed by Vietnam’s Ministry of Information and Communication (MIC) to begin to provide a variety of services, including online advertising and paid content. Dot VN and its partners have designed Info.VN to be the ultimate Internet portal that will aggregate and organize everything that the Vietnamese Internet has to offer, serving as the principal online resource for the Vietnamese people. “Info.VN” successfully completed its beta test phase.

The launch of Info.VN will allow Dot VN to move forward with its plans to introduce additional functionality and services to the site, including daily news, business directories, newswire services, e-commerce, games, free e-mail, web hosting, a smart search engine, branded social networking, and cutting edge advertising solutions. News feeds are currently available from numerous media sources and video content is expected to be added soon.

“We are very pleased to announce that we have officially launched our new Vietnamese information super portal Info.VN,” said Dot VN CEO Thomas Johnson. “Our site has gone through rigorous testing and qualification standards to ensure stability and functionality. We have worked directly with the Vietnam Internet Network Information Center (VNNIC) for the past four years to develop Info.VN and we believe that this platform is a significant step towards revolutionizing Vietnam’s Internet offerings.”

Info.VN is built for individual and business users both in Vietnam and around the world as a main hub for news, entertainment and information available in one central and easy to navigate website. The website is available in both Vietnamese and English, making access easier for non-Vietnamese speaking users. VNNIC is working with Dot VN to provide technical assistance and co-marketing support for the site. By leveraging the existing traffic from the domain registry monetization program, Dot VN expects to initially serve up to 1.1 million Internet users a day.
