

DotVN, Inc. Announces plans to complete a viable revenue producing platform and with a reasonable work out of existing debt, the Company is confident it will begin operating strictly on revenue within the year.

SAN DIEGO, CALIFORNIA – May 6, 2013, Dot VN, Inc., (<http://www.dotvn.com>) (OTC Trading Symbol: [DTVVI](#)), an Internet and Telecommunications Company (“the Company” or “Dot VN”) and the online global domain name registrar for the Country of Vietnam and exclusive registrar for the Vietnamese Native Language Internationalized Domain Names (“Vietnamese IDN”), announced today that it is very close to completing the technical aspects required by Google to launch the Vietnamese IDN (International Domain Names) marketing program. Dot VN already has a long term working relationship with the world’s largest online marketing and search engine leader. This will allow and begin the advertising monetization of Vietnamese IDN web platforms. In common terms it means that Dot VN will begin creating multiple revenue streams from views and clicks associated with the nearly 1 million registered Vietnamese IDN domain names. The most important aspect is the traffic and Dot VN has already established success in the area.

Beginning on May 6, 2013 Dot VN will begin the process of restructuring corporate debt. Dot VN management is confident that it is now able to move forward into a self sustaining revenue production phase. Dot VN is already working well with suppliers, vendors and employees and will concentrate the restructuring efforts on extending maturity dates and reducing debt and maintenance costs.

The Company already has plans to set up advisory committees with the various types of stakeholders, in order to assure openness and transparency in operating and restructuring of debt. Toward this end, the Company has engaged Eric Dierker to co-ordinate and help manage this transition. Eric Dierker worked with the Company in Vietnam and the U.S. in forming the contractual and procedural agreements with the Vietnamese Government as early as 2001 in the capacity of Global Internet Strategist. Mr. Dierker is an expert in negotiating creditor/debtor relations.

Dot VN is proud to be filing a very inclusive Form 8-K with the SEC which sets forth a clear disclosure of the current corporate obligation structure, within the parameters of appropriate confidentiality.

This is all in accord with the long range plan for developing the Vietnamese Internet presence.
